JIHAD MIA

CSE @ SEU | Competitive Programmer | Skilled in C, C++, Java, Problem Solving | Sub-Executive, Southeast Computer Club
Bhairab Bāzār, Dhaka, Bangladesh

Summary

B.Sc. in Computer Science & Engineering student at Southeast University with a strong passion for competitive programming, problem-solving, and continuous learning. I thrive on challenges that push me to think critically and solve problems efficiently.

Skilled in C, C++, Python, Java, Bash, and Linux, I actively participate in Codeforces contests, university programming competitions, and ICPC preliminaries, working to solve problems faster and more accurately.

Beyond personal growth, I'm committed to building a programming culture at my university — guiding juniors, collaborating with peers, and contributing to the community as a Sub-Executive member of the Southeast Computer Club.

Always eager to explore new technologies, share knowledge, and work on impactful projects that blend technical excellence with real-world value.

Interests: Competitive Programming | Problem Solving | Software Development | Community Building | Linux & Open Source | Learning New Technologies

---

Experience

Southeast Computer Club
Team Lead
April 2025 - Present (7 months)
Dhaka, Bangladesh

Team Lead (Technical Development) at Southeast University Computer Club (SEUCC).

As Team Lead, I am responsible for guiding and managing a team toward achieving our project and organizational goals. My key responsibilities include:

Providing strategic direction and daily support to team members

Delegating tasks effectively while ensuring alignment with team strengths

Fostering collaboration, accountability, and professional growth

Managing timelines, resolving blockers, and maintaining high productivity

Acting as the primary communication bridge between the team and higher management

Promoting a positive and motivating team culture

Through this role, I'm strengthening my leadership, communication, and project management skills while driving meaningful results as part of a cohesive, high-performing team.

Phitron
Phitronista: Campus Ambassador at Phitron!
June 2025 - October 2025 (5 months)
Dhaka, Bangladesh

Representing Phitron at Southeast University as a Campus Ambassador. Passionate about promoting programming and tech education among students. Engaging with the community, organizing events, and sharing valuable resources to inspire and empower the next generation of developers.
